

National Fire Equipment Ltd.

ANTIFREEZE TESTERS

MT-757ADATC

For use with propylene glycol

MT-055ATC

For use with glycerin

National Fire's model MT-757ADATC and MT-055ATC are handheld refractometers designed for either propylene glycol or glycerin. These highly sensitive tools measure the percentage of antifreeze in sprinkler standpipe systems. Comes complete with carrying case, eyedropper, and precision screwdriver. Ensure you system complies with NFPA recommendations for antifreeze concentrations and prevent costly freeze-ups and subsequent leaks and damage.
