CTE-300 EXTINGUISHER CABINETS

National Fire's model CTE-300 extinguisher cabinets offer a completely flush surrounding trim; for a smooth, polished look. A popular option for upscale condos, office buildings, hotels or anywhere where aesthetics is a concern. These cabinets are most commonly offered in either 304 grade #4 finish stainless steel with black tub and surrounding trim, or simple prime painted grey. However, we offer a variety of optional custom finishes. Please contact your local branch for more information on custom CTE style cabinets.
