

National Fire Equipment Ltd.

MULTIPURPOSE SR

Multipurpose SR is a PVC coated reel hose. Our most economical non collapsible hose; standard on all our model HRS-038 continuous flow hose reels. The smooth PVC jacket allows for quick and easy clean up. Suitable for fire protection or industrial applications. Tested by European, Australian and Malaysian laboratories to European Standard EN 694 and Australian Standard AS 1221. Not suited for freezing temperatures. For a multipurpose hose that remains functional in cold temperatures, try our regular Multipurpose with EPDM jacket. Available in 1" x 100' lengths.

Working Pressure: 220 Psi (1,517 kPa)

Test Pressure: 250 Psi (1,724 kPa)

Burst Pressure: 696 Psi (4,799 kPa)

Multipurpose SR is designed for our model HRS-038 continuous flow hose reel.
