

National Fire Equipment Ltd.

1-1/2" STATION MONITOR 350 GPM FP1-125

SPECIFICATIONS

National Fire/ Fire Pro® station monitors were specifically designed to meet all requirements of municipal and petrochemical applications. The balanced flow single waterway design and precision machining on swivel joints reduces friction loss while improving stream and distance, and ensures ease of operation at all pressure/ flow ranges. Carbon Steel construction with 304 stainless steel swivels. Standard red polyester powder coating inside and out protect against corrosion.

Type 304 stainless steel ball bearings in joints ensure easy movement and reliable operation.

REGULARLY FURNISHED

- Zerk fitting for lubrication
- 1-1/2" Waterway
- 360° horizontal and 120° vertical travel
- Low friction loss
- Seamless carbon or stainless steel construction
- 125-350 GPM (473-1325 lpm)

PRODUCT OPTIONS

- Drainage Provisions
- Gauge and Guard
- Metric Flanges
- Parallel Handle
- Shut Off Valve
- Steering Wheel Handle
