

LIGATURE RESISTANT CABINETS

Ligature-resistant cabinets are specifically designed for mental health facilities, prioritizing considerations for self-harm and patient safety. These cabinets can accommodate a 10 lb. extinguisher (i.e. ABC-100WWD). They feature ligature-resistant beveled or sloped trim with seamless, smooth edges to enhance patient safety. Additionally, the doors have a double break edge to provide reinforced stiffness. Both the door and trim are manufactured from 16-gauge steel. The cabinet's design minimizes access points that could result in self-harm.

FEATURES

Wall Mount Style	<ul style="list-style-type: none">• Recessed• Semi-recessed
Hinge	<ul style="list-style-type: none">• Continuous piano hinge
