SERVICE, SOLUTIONS, INNOVATION

Reed Manufacturing *CPVC Installation Solutions Kit*

These kits contain tools required to install a perfect joint every time to prevent failures between pipe and fitting. All tools are contained in a durable, hard plastic case.

ONLY \$319.10 + HST

QUICK RELEASE TUBING CUTTERS

The best tracking, easiest cutting, tubing cutters available. With alternate wheels available, they will always produce a square, clean cut which is imperative for proper, even stab depth into fittings and for reducing leak potential.

DEB4 DEBURRING TOOL

Deburr and produces a 15 degree external chamfer in seconds. They deburr the pipe exterior only to allow easy assembly into fittings. DEB4 creates a smooth, chamfered pipe end so solvent can be spread evenly for pipe joining.

DEB1 SERIES DEBURRING TOOLS FOR PLASTIC PIPE

Offers knurled grip for slip-resistance and durable aluminum body for longevity. Patented DEB1 tools deburr and chamfer in the same rotation to pipe manufacturers' recommendations in seconds.
