To Whom It May Concern,

At Zurn we constantly assess the product portfolio, looking for new opportunities to grow. Sometimes this includes looking for models that should be trimmed out of the line to make room for growth. Effective immediately we will start to discontinue the Model Z3000 & Z3004 Series Pressure Tru (Pressure Reducing) Fire hose and floor control valves.

-Affected Product-

The Zurn Wilkins Model Z3000 & Z3004 series are being discontinued. A suggested alternative product for replacement or new installations is the standard Model ZW5000/ZW5004 series valves. Please refer to the chart below.

Product Group	Discontinued Item	Alternative Products
