

RFIIE EXTENDED COVERAGE HORIZONTAL SIDEWALL SPRINKLER

Flat profile design
ideal for architecturally
sensitive areas

Part of the TYCO
family of aesthetic
sprinklers

- Long throw up to 24 feet of extended coverage
- Quick Response
- Concealed operating parts prevent objects from being hung from the sprinkler and causing activation
- Custom factory-painted cover plates available
- cULus Listed

The TYCO Model RFIIE Extended Coverage Flat-Plate Concealed sprinkler has an 8.0 K-Factor and is rated for Light Hazard occupancies. With its unique, flat cover designed to conceal the sprinkler within the wall, the RFIIE is an ideal choice for architecturally-sensitive installations, such as hotel rooms, reception areas, banquet facilities, conference rooms, and hospitals. The RFIIE is designed to provide protection for coverage areas up to 16 ft x 24 ft (4,9 m x 7,3 m) and 18 ft x 22 ft (5,9 m x 6,7 m).

The flat profile of the sprinkler cover plate allows it to easily blend with the wall surface for a clean look and additionally helps prevent damage and interruption from accidental activations that may be caused by objects being hung from or striking the sprinkler. The cover plate assembly is available in a variety of standard colors, as well as factory-painted custom colors—visit www.tyco-fire.com/custompaint for more details on custom paint options.

The RFIIE joins the TYCO family of aesthetic sprinklers, which includes RFIIE flat-plate concealed pendant sprinklers, also available in a range of standard and custom colors, as well as the Raven Studio sprinkler, available in custom colors or with a paint-in-place escutcheon. To learn more about the RFIIE, visit www.tyco-fire.com.
